

WHITEPAPER

# Tweet Boss

Mr Tweet is Tweet Boss

# Inspired by Elon Musk!

**TWEET BOSS**

Tweet Boss is the newest Community-DrivenToken, launched on the Binance Smart Chain.

Tweet Boss strives on community effort, very similar to the world's most important insect, the Bee. Community effort allows the low tax token to flourish and generate wealth for the entire community of investors.

Fully decentralized, Tweet Boss aims to turn the community into a half bee, working together to achieve greatness however still being human.

Tweet Boss contract is renounced and the initial liquidity will be burned at launch, creating a safe and reassuring space for community members.

## Utility Developments

Tweet Boss core team of developers plan to create a fun, exciting and inviting ecosystem for users through several indemand DeFi utilities. These include, a trading swap, a P2E NFT based game, and an AI system to support token holders, called the Tweet Boss AI. Tweet Boss plans to grow an everlasting ecosystem which will be bridged to the must anticipated Shibarium Chain, and will offer a user-friendly DEX leveraging an innovative auto arbitrage system to continuously support the Tweet Boss (TB) Token

More information and updates on these utilities will be provided in the telegram discussion group and through the official Tweet Boss Telegram handle @TweetBossPortal
